

SUPER PULLOVER MACHINE / 1FW039

The Super Pullover Machine reproduces the traditional multifunctional exercise performed with barbells and dumbbells with a full range of motion making a synergy in activation of the Pectoralis Major and Latissimus Dorsi. It stands out for:

- gas assisted seat with height adjustment;
- gas assisted backrest with depth adjustment;
- full rom up 240° of shoulder extension;
- levers system with cam addition to ensure a natural adaptation of the load;
- handle and multiple grip for a tight hold (without elbows support on paddings) or medium wide with elbows support; ;
- counterweight to reset the empty weight of the exercise lever;
- locking belt for a better stability of the torso;
- lever for a physiological starting movement.

Optional:

- 6 additional weight holders.

MUSCLES
