

SUPER MIDDLE CHEST FLIGHT MACHINE / 1FW043

The Super Horizontal Flight Machine is designed to isolate the central portion of the pectoral muscle. The 40° inclined backrest ensures maximum comfort and easy positioning for all users.

- gas-assisted height adjustable seat;
- independent levers for mono-lateral or bilateral execution;
- fixed side handgrips for a stable body during monolateral performance;
- physiological load curve with leverage system;
- jointed handles;
- spring counterbalanced to reset the empty weight of the exercise levers;
- lever for a physiological start movement.

Optional

- 6 additional weight holders.
